60. Joint Resolution authorizing emergency appropriations in the amounts of \$876,031 in the Health Department budget and \$5,000 in the Loon Lakes Special Service Area budget as a result of increased revenue.
- The Health Department has been awarded seven new grants and has also received increased revenues from Community Health, Environmental Health, Behavioral Health and Primary Care Service Areas, as well as the Loon Lake Special Service Area.
 - These funds have not been previously appropriated because they were awarded after the adoption of the FY2006 budget.
 - The new grants and additional revenue for the Health Department totals \$876,031, and a complete list of the sources of these funds is included in the resolution.
 - The increased revenue for the Loon Lake Special Service Area totals \$5,000.

Member Martini reported that Stormwater Management Commission received a portion of this money to train certified communities. Member Martini noted that she was very supportive of this money going directly to Loon Lake and Little Silver Lake for the clean up of these lakes. Member Mountsier asked that staff check with Jim Bock, the attorney for SMC, to see what he knows about this distribution. - Winchester House has insufficient appropriation to complete the fiscal year.
 - This is partially the result of the cost of wages and associated benefits of positions that were restored in late 2005. It was anticipated at that time that these positions would be covered through a combination of payroll contingency and savings elsewhere in the County's budget.
 - Additionally, benefit changes based on individuals were not known at the time the budget was finalized.
 - The IMRF and FICA funds reimburse departments for their FICA and IMRF expense. There is enough undistributed appropriation in these funds to cover an estimated \$235,000 in shortfall at Winchester House.
